

GAETAN JAMET

DEJEPS Tennis Diploma

COACHING STYLE

Hello, my name is Gaetan. I'm a French tennis coach, originally from Brittany. I've worked in Toulouse for 10 years. I have been living in London for three years now.

As a coach, my goal is to improve my players skills while having fun.

I have been in charge of training performance and high-level players for about ten years. I aim to bring my players to the highest possible level while achieving their goals.

As well as coaching experienced players, I also work with players of all levels (beginners and intermediate). By improving basic skills my students also learn to have fun on the court.

If you would like more information, or to talk through your specific teaching requirements, please contact me via the email address below.
